## Dinner Presentation

by Dr. Russell M Jaffe, MD, PhD, CCN

### Predictive Biomarkers Promote Successful Practices

Thursday, April 12, 2018, 6:30 - 8:45 p.m.

Wild Ginger, 1401 Third Avenue, Seattle, WA 98101

---

Join us for dinner and an informative presentation by world renowned functional medicine expert, Dr. Russell Jaffe. You will learn:

- What predictive biomarkers are and what they represent
- The difference between known tests and functional predictive tests, and associated epigenetic risks
- The difference between, and importance of, predictive goal values vs “normal” lab values
- The connection between biomarker tests and clinical principles relating to autoimmune, chronic, degenerative and inflammatory conditions.
- How the 8 predictive biomarkers discussed relate to other currently used markers, and why choosing the right kind of biomarker tests can improve quality of clinical care
- To provide more personalized care, improve clinical outcome in patients, and increase practice success.

**Seating is limited. Reserve your spot TODAY!**

If you can't make it to this dinner but would like to learn more about predictive biomarkers, contact EAB Client Services at 800-553-5472.

**Kindly RSVP by April 5th  
to [EFriedman@PERQUE.com](mailto:EFriedman@PERQUE.com) or 703-840-4445**
